Title Index

A community based high risk register for hearing loss. J. L. Fitch, & T. F. Williams. November, 373-375.
A comparison of functional gain and 2 CM^3 coupler gain. D. B. Hawkins, & G. B. Haskell. February, 71-76.
A comparison of request-response sequences in the discourse of normal and language-disordered children. B. Brinton, & M. Fujiki. February, 57-62.
A comparison of two procedures to elicit verbal auxiliary and copula in normal kindergarten children. D. Hughes, & J. A. Till. August, 310-320.
Acoustic characteristics of voice production after Staffieri's surgical reconstructive procedure. J. Robbins, H. B. Fisher, & J. A. Logemann. February, 77-84.
A ⅓ octave-band noise generator for sound-field audiometric measurements. R. Lippmann, & D. Adams. February, 84-88.
Airway resistance characteristics of Blom-Singer tracheosophageal puncture prosthe-

ses. B. Weinberg, & J. Moon. November, 441-442.
Airway resistance during esophageal phonation. B. Weinberg, Y. Horii, E. Blom, & M. Singer. May, 194-199.
An analysis of elicited imitation as language evaluation procedure. P. J. Connell, & C. Myles-Zitzer. November, 390-396.
An around-the-house device for the clinical determination of respiratory driving pressure: A note on making simple even simpler. T. Hixon, J. L. Hawley, & K. J. Wilson. November, 413-415.
A physiological approach to the dysarthrias. J. C. Rosenbek, & L. L. LaPointe. August, 334.
A procedure for qualifying the effects of noise on speech recognition. D. D. Dirks, D. E. Morgan, & J. R. Dubno. May, 114-123.
A program for achieving generalization of grammatical rules to spontaneous discourse. B. Culatta, & D. Horn. May, 174-180.
A reply to Rothenberg. T. J. Hixon. May, 220-223.
A tactic for facilitating social interaction with laryngectomees. G. Blood, & I. M. Blood. November, 416-419.
Auditory dysfunction following a gunshot wound of the pons. M. L. Pinheiro, G. P. Jacobson, & F. Boller. August, 296-300.
Aural acoustic-immittance measures: A reply to de Jonge. R. H. Wilson, & J. E. Shanks. August, 334-335.
Cognition and language development in autism. A. M. Wetherby, & B. H. Gaines. February, 63-70.
Compensatory articulation patterns of a surgically treated oral cancer patient. D. A. Georgian, J. A. Logemann, & H. B. Fisher. May, 154-159.
Computing false positive and false negative rates for the crib-o-gram. I. M. Ventry. February, 109-110.
Contingent self-stimulation for stuttering. R. Martin, & S. K. Haroldson. November, 407-413.
Diadochokinetic syllable rate and regularity in normal and in spastic and ataxic dysarthric subjects. R. A. Portnoy, & A. E. Aronson. August, 324-328.
Effectiveness of a modified version of airflow therapy: Case studies. G. L. Falkowski, A. M. Guilford, & J. Sandler. May, 160-164.
Effects of hearing aid use on self concept in older persons. E. L. Harless, & F. McConnell. August, 305-309.
Effects of hearing aid use on speech discrimination and listening effort. D. W. Downs. May, 189-193.
Effects of prosthetic tongue on vowel intelligibility and food management in a patient with total glossectomy. R. Leonard, & R. Gillis. February, 25-30.
Electroacoustic characteristics of personal FM systems. D. B. Hawkins, & D. J. Van Tasell. November, 355-362.
Epilogue: A tale from the field. T. J. Hixon. May, 223.
Establishing generalized, productive verb-noun phrase usage in a manual language system with moderately handicapped children. G. R. Karlan, B. Brenn-White, A. Lentz, P. Hodur, D. Egger, & D. Frankoff. February, 31-42.
Evaluation of regulated-breathing method and awareness training in the treatment of stuttering. R. Ladouceur, C. Côté, G. Leblond, & L. Bouchard. November, 422-426.
Gesture recognition in patients with aphasia. J. K. Daniloff, J. D. Noll, M. Fristoe, & L. L. Lloyd. February, 43-49.
Interpolating subglottal pressure from oral pressure. M. Rothenberg. May, 219-220.
Intra-subject variability in F_0-SPL_{min} voice profiles. R. E. Stone, Jr., & P. A. Krause Ferch. May, 134-137.
Language training in natural and clinical environments. J. E. Spradlin, & G. M. Siegel. February, 2-6.
Learning disabled children syntactic proficiency on a communicative task. M. Donahue, R. Pearl, & T. Bryan. November, 397-403.
Lubert and language disorders: A critique. C. W. Fuller. August, 328-329.
Measurement of reading comprehension in aphasia with the RCBA. A. A. Van Demark, E. C. J. Lemmer, & M. L. Drake. August, 288-291.
Nonverbal intelligence and English language ability in deaf children. B. U. Watson, P. M. Sullivan, M. P. Moeller, & J. K. Jensen. May, 199-204.
Overamplification: A well-documented case report. D. B. Hawkins. November, 382-384.
Observing functional communication of aphasic adults. A. L. Holland. February, 50-56.
On the utility of the NSST short form: A reply to Burns. T. M. Klee, & D. L. Ratusik. August, 333-334.
Paired gestural and vocal behavior in one-year-old cleft lip and palate children. N. V. Long, & P. [illegible] Dalston. November, 403-406.
Parent-child interactions in normal and language-disordered children. E. Z. Lasky, & K. Klopp. February, 7-18.
Peer perceptions of geriatrics wearing hearing aids. K. Iler, J. L. Danhauer, & A. Mulac. November, 433-438.
Performance of new hearing aids using the ANSI S3.22-1976 standard. T. H. Townsend, & C. C. Olsen. November, 376-382.
Phonetic disintegration in a five-year-old following sudden hearing loss. C. A. Binnie, R. G. Daniloff, & H. W. Buckingham, Jr. May, 181-189.
Phonological disorders I: A diagnostic classification system. L. D. Shriberg, & J. Kwiatkowski. August, 226-241.
Phonological disorders II: A conceptual framework for management. L. D. Shriberg, & J. Kwiatkowski. August, 242-256.
Phonological disorders III: A procedure for assessing severity of improvement. L. D. Shriberg, J. Kwiatkowski. August, 256-270.
Pragmatic analysis of the communicative behavior of an autistic child. V. Bernard-Opitz. February, 99-109.
Pragmatics as social competence. C. A. Prutting. May, 123-134.
Preferences for three types of alaryngeal speech. G. Green, & M. Hults. May, 141-145.
Profiles of children with severe oral language disorders. A. H. Luick, A. Agronowitz, S. A. Kirk, & R. Busby. February, 88-92.
Psychometric deficiencies of the short form version of the Northwestern syntax screening test. E. Burns. August, 331-333.
Relationship between covert and overt speech measures immediately before and immediately after stuttering treatment. P. M. Howie, C. L. Woods, & J. G. Andrews. November, 419-422.
Reply to Barrett et al. G. M. Siegel. May, 224.
Reply to Ralph Shelton. F. Weiner. August, 336.
Reply to Rosenblum and Cantrell. A. H. B. Putnam. May, 218-219.
Reply to Ventry. W. H. McFarland, & F. B. Simmons. February, 110.
Response to Hale-Haniff and Siegel. M. D. Barrett, L. W. Zachman, R. A. Huisingh, & C. A. Jorgensen. May, 223.
Response to Lubert. P. F. O'Connell. August, 329-330.

The effects of self-evaluation training on maintenance and generalization during stuttering treatment. R. J. Ingham. August, 271-280.
The interruption of young children's responses by older siblings. C. Wellon, & P. Broen. May, 204-210.
The pass/fail disparity among three commonly employed articulatory screening tests. S. I. Ritterman, S. Zook-Herman, R. L. Carlson, & S. W. Kinde. November, 429-433.
The potential of language tasks for identifying

senile dementia. K. A. Bayles, & D. R. Boone. May, 210-217.
The picture identification task. A reply to Dillon. R. H. Wilson, & J. K. Antablin. February, 112.
The relationship of communication disorders in syndrome identification. V. L. Siegel-Sadewitz, & R. J. Shprintzen. November, 338-354.
The use of communication board in a residential setting: An evaluation. S. Calculator, & C. Dollaghan. August, 281-287.
The use of elicited imitation as a measure of expressive grammer: A question of validity. H. L. McDade, M. A. Simpson, & D. E. Lamb. February, 19-24.
Tournament strategies in hearing aid selection. A. A. Montgomery, D. M. Schwartz, & J. L. Punch. November, 363-372.
Velopharyngeal incompetence in a patient with multifocal eosinophilic granuloma (Hand-Schuller-Christian disease) E. R. Cohn, K. L. Garver, H. C. Metz, B. J. McWilliams, M. L. Skolnick, & W. S. Garrett. August, 320-323.
Visual action therapy for Global Aphasia. N. Helm-Estabrooks, P. M. Fitzpatrick, & B. N. Barresi. November, 385-389.

SUBJECT INDEX

Hearing

ACOUSTIC-IMMITTANCE MEASURES

Aural acoustic-immittance measures: A reply to de Jonge. R. H. Wilson, & J. E. Shanks. August, 334-335.
Response to Wilson and Shanks. R. de Jonge. August, 335.

DIAGNOSTIC AUDIOMETRY

A ⅓ octave-band noise generator for sound-field audiometric measurements. R. Lippmann, D. Adams. February, 84-87.
A procedure for quantifying the effects of noise on speech recognition. D. D. Dirks, D. E. Morgan, & R. Dubno. May, 114-122.
Computing false positive and false negative rates for the crib-o-gram. I. M. Ventry. February, 109-110.
Sound as a reinforcer for infants' manipulations of toys. R. A. Rosenberg, & R. A. Butler. August, 292-295.

HABILITATION, REHABILITATION, EDUCATION

Evaluation of regulated-breathing method and awareness training in the treatment of stuttering. R. Ladouceur, C. Côté, G. Leblond, & L. Bouchard. November, 422-426.

HEARING AIDS, AUDITORY PROSTHESES

A comparison of functional gain and 2 CM^3 coupler gain. D. B. Hawkins, G. B. Haskell. February, 71-76.
Effects of hearing aid use of self concept in older persons. E. L. Harless, & F. McConnell. August, 305-309.
Effects of hearing aid use on speech discrimination and listening effort. D. W. Downs. May, 189-193.
Electroacoustic characteristics of personal FM systems. D. B. Hawkins, D. J. Van Tasell. November, 355-363.
Peer perceptions of geriatrics wearing hearing aids. K. Iler, J. L. Danhauer, & A. Mulac. November, 433-438.
Performance of new hearing aids using the ANSI S3.22-1976 standard. T. H. Townsend, & C. C. Olsen. November, 376-382.
Tournament strategies in hearing aid selection. A. A. Montgomery, D. M. Schwartz, & J. L. Punch. November, 363-372.

HEARING LOSS AND DEAFNESS

A community based high risk register for hearing loss. J. L. Fitch, T. F. Williams, & J. E. Etienne. November, 373-375.
A procedure for quantifying the effects of noise on speech recognition. D. D. Dirks, D. E. Morgan, & R. Dubno. May, 114-122.
Computing false positive and false negative rates for the crib-o-gram. I. M. Ventry. February, 109-110.
Peer perceptions of geriatrics wearing hearing aids. K. Iler, J. L. Danhauer, & A. Mulac. November, 433-438.
Phonetic disintegration in a five-year-old following sudden hearing loss. C. A. Binnie, R. G. Daniloff, & H. W. Buckingham, Jr. May, 181-188.
Reply to Ventry. W. H. McFarland, & F. B. Simmons. February, 110.
Some observations concerning premeaningful vocalizations of hearing-impaired infants. B. Smith, November, 439-441.

SPEECH AUDIOMETRY

The effect of response methods on the difficulty of speech discrimination tests, A response to Wilson and Antablin, JSHD 1980. H. Dillon, February, 111-112.
The picture identification task. A reply to Dillon. R. H. Wilson, & J. K. Antablin. February, 112.

Language

APHASIA, AGNOSIA, APRAXIA

Gesture recognition in patients with aphasia. J. Daniloff, J. D. Noll, M. Fristoe, & L. L. Lloyd. February, 43-49.
Measurement of reading comprehension in aphasia with the RCBA. A. Van Demark, E. C. Lemmer, & M. L. Drake. August 288-291.
Observing functional communication of aphasic adults. A. L. Holland. February, 50-56.
Profiles of children with severe oral language disorders. A. H. Luick, A. Agronowitz, S. A. Kirk, & R. Busby. February, 88-92.
Response to Lubert. P. F. O'Connell. August, 329-330.
Visual action therapy for global aphasia. N. Helm-Estabrooks, P. M. Fitzpatrick, & B. N. Barresi. November, 385-389.

ASSESSMENT

Cognition and language development in autism. A. M. Wetherby, & B. H. Gaines. February, 63-70.
On the utility of the NSST short form: A reply to Burns. T. M. Klee, & D. L. Ratusik. August, 333-334.
Profiles of children with severe oral language disorders. A. H. Luick, A. Agronowitz, S. A. Kirk, & R. Busby. February, 88-92.
Psychometric deficiencies of the short form version of the Northwestern syntax screening test. R. Burns. August, 331-333.
Reply to Barrett et al. G. M. Siegel. May, 224.
Response to Hale-Haniff and Siegel. M. D. Barrett, L. W. Zachman, R. A. Huisingh, & C. A. Jorgensen. May, 223.
The effects of different masking noises on children with /s/ or /r/ errors. E. A. Yanez, G. M. Siegel, S. R. Garber, C. J. Wellon. May, 150-153.
The development of an objective observation tool for parent-child interaction. J. B. Russo, & R. E. Owens, Jr. May, 165-173.
The use of elicited imitation as a measure of expressive grammar: A question of validity. H. L. McDade, M. A. Simpson, & D. E. Lamb. February, 19-24.

LANGUAGE DISABILITIES IN CHILDREN

A comparison of request-response sequences in the discourse of normal and language-disordered children. B. Brinton, & M. Fujiki. February, 57-62.
Language training in natural and clinical environments. J. Spradlin, & G. M. Siegel. February, 2-6.
Lubert and language disorders: A critique. C. W. Fuller. 328-329.
Parent-child interactions in normal and language-disordered children. E. Z. Lasky, & K. Klopp. February, 7-18.
Profiles of children with severe oral language disorders. A. H. Luick, A. Agronowitz, S. A. Kirk, & R. Busby. February, 88-92.
Response to Hale-Haniff and Siegel. M. D. Barrett, L. W. Zachman, R. A. Huisingh, & C. A. Jorgensen. May, 223.
Response to Lubert. P. F. O'Connell. August, 329-330.
The development of an objective observation tool for parent-child interaction. J. B. Russo, & R. E. Owens, Jr. May, 165-173.
The interruption of young children's responses by older siblings. C. Wellon, & P. Broen. May, 204-209.
The relationship of communication disorders in syndrome identification. R. J. Shprintzen, & V. L. Siegel-Sadewitz. November, 338-354.

LEARNING DISABILITIES

Learning disabled children syntactic proficiency on a communicative task. M. Donahue. R. Pearl, & T. Bryan. November, 397-403.

MENTAL RETARDATION

Language training in natural and clinical environments. J. E. Spradlin, & G. M. Siegel. February, 2-6.

NORMAL LANGUAGE DEVELOPMENT

Pragmatics as social competence. C. A. Prutting. May, 123-133.
The interruption of young children's responses

by older siblings. C. Wellon, & P. Broen. May, 204-209.

PSYCHOLINGUISTICS OF NORMAL LANGUAGE USE

A comparison of two procedures to elicit verbal auxiliary and copula in normal kindergarten children. D. Hughes, & J. A. Till. August, 310-320.
An analysis of elicited imitation as language evaluation procedure. P. J. Connell, & C. Myles-Zitzer. November, 390-396.

TREATMENT

A program for achieving generalization of grammatical rules to spontaneous discourse. B. Culatta, & D. Horn. May, 174-180.
Language training in natural and clinical environments. J. E. Spradlin, & G. M. Siegel. February, 2-6.

Professional and General Scientific Issues

ETHICS AND STANDARDS

Psychometric deficiencies of the short form version of the Northwestern syntax screening test. E. Burns. August, 331-333.
Response to Putnam. G. R. Rosenblum. May, 218.

INSTRUMENTATION

A ⅓ octave-band noise generator for sound-field audiometric measurements. R. Lippmann, & D. Adams. February, 84-87.
A reply to Rothenberg. T. J. Hixon. May, 220-223.
Interpolating subglottal pressure from oral pressure. M. Rothenberg. May, 219-220.

METHODS

A reply to Rothenberg. T. J. Hixon. May, 220-223.
Response to Weiner. R. Shelton. August, 335.

OTHER

Auditory dysfunction following a gunshot wound of the pons. M. L. Pinheiro, G. P. Jacobson, & F. Boller. August, 296-300.

STATISTICS

Psychometric deficiencies of the short form version of the Northwestern syntax screening test. E. Burns. August, 331-333.

Speech

ARTICULATION OR PHONOLOGICAL DISORDERS

Phonological disorders I: A diagnostic classification system. L. D. Shriberg, & J. Kwiatkowski. August, 226-241.
Phonological disorders II: A conceptual framework for management. L. D. Shriberg, & J. Kwiatkowski. August, 242-256.
Phonological disorders III: A procedure for assessing severity of improvement. L. D. Shriberg, & J. Kwiatkowski. August, 256-270.
Reply to Ralph Shelton. F. Weiner. August, 336.
Response to Weiner. R. Shelton. August, 335.
The effects of different masking noises on children with /s/ or /r/ errors. E. A. Yanez, G. M. Siegel, S. R. Garber, & C. J. Wellon. May, 150-153.
The pass/fail disparity among three commonly employed articulatory screening tests. S. I. Ritterman, S. Zook-Herman, R. L. Carlson, & S. W. Kinde. November, 429-433.
Some observations concerning premeaningful vocalizations of hearing-impaired infants. B. Smith. November, 439-441.

ASSESSMENT

An around-the-house device for the clinical determination of respiratory driving pressure: A note on making simple even simpler. T. Hixon, J. L. Hawley, & K. J. Wilson. November, 413-415.
The effects of different masking noises on children with /s/ or /r/ errors. E. A. Yanez, G. M. Siegel, S. R. Garber, & C. J. Wellon. May, 150-153.
Relationship between covert and overt speech measures immediately before and immediately after stuttering treatment. P. M. Howie, C. L. Woods, & J. G. Andrews. November, 419-422.
The relationship of communication disorders in syndrome identification. R. J. Shrintzen, & V. L. Siegel-Sadewitz. November, 338-354.

CRANIOFACIAL ANOMALIES, VOCAL TRACT DISABILITIES

An around-the-house device for the clinical determination of respiratory driving pressure: A note on making simple even simpler. T. Hixon, J. L. Hawley, & K. J. Wilson. November, 413-415.
Compensatory articulation patterns of a surgically treated oral cancer patient. D. A. Georgian, J. A. Logemann, H. B. Fisher. May, 154-159.
Effects of prosthetic tongue on vowel intelligibility and food management in a patient with total glossectomy. R. Leonard, & R. Gillis. February, 25-30.
Paired gestural and vocal behavior in one-year-old cleft lip and palate children. N. V. Long, & R. M. Dalston. November, 403-406.
The relationship of communication disorders in syndrome identification. R. J. Shprintzen, V. L. Siegel-Sadewitz. November, 338-354.
Velopharyngeal in competence in a patient with multifocal eosinophilic granuloma (Hand-Schuller-Christian disease). E. R. Cohn, K. L. Garver, H. C. Metz, B. J. McWilliams, M. L. Skolnick, & W. S. Garrett. August, 320-323.

NEUROLOGIC DISABILITIES

A physiological approach to the dysarthrias. J. C. Rosenbek, & L. L. LaPointe. August, 334.
Diadochokinetic syllable rate and regularity in normal and in spastic and ataxic dysarthric subjects. R. A. Portnoy, & A. E. Aronson. August, 324-328.
The use of communication boards in a residential setting: An evaluation. S. Calculator, & C. Dollaghan. August, 281-287.

PERSONALITY AND PSYCHIATRIC DISTURBANCES

Sudden onset of stuttering: A case report. J. L. Deal. August, 301-304.

SPEECH OR VOICE PRODUCTION

Airway resistance during esophageal phonation. B. Weinberg, Y. Horii, E. Blom, & M. Singer. May, 194-198.
A reply to Rothenberg. T. J. Hixon. May, 220-223.
Intra-subject variability in F_0-SPL_{min} voice profiles. R. E. Stone, & P. A. Krause Ferch. May, 134-137.

SPEECH PERCEPTION, AUDITORY PROCESSING

Airway resistance characteristics of Blom-Singer tracheoesophageal puncture prostheses. B. Weinberg, & J. Moon. November, 441-442.
Lubert and language disorders: A critique. C. W. Fuller. August, 328-329.

STUTTERING, OTHER FLUENCY DISORDERS

Contingent self-stimulation for stuttering. R. Martin, & S. K. Haroldson. November, 407-413.
Evaluation of regulated-breathing method and awareness training in the treatment of stuttering. R. Ladouceur, C. Côté, G. Leblond, & L. Bouchard. November, 422-426.
Relationship between covert and overt speech measures immediately before and immediately after stuttering treatment. P. M. Howie, C. L. Woods, & J. G. Andrews. November, 419-422.
Stuttering: Overt and covert measurement of the speech of treated subjects. G. Andrews, & A. Craig. February, 96-98.
Stuttering: The results of 5 days treatment with an airflow technique. J. G. Andrews, & S. Tanner. November, 427-429.
Stuttering treatment: An attempt to replicate the regulated-breathing method. G. Andrews, & S. Tanner. May, 138-140.
Sudden onset of stuttering: A case report. J. L. Deal. August, 301-304.
The effects of self-evaluation training on maintenance and generalization during stuttering treatment. R. J. Ingham. August, 271-280.

SPEECH TREATMENT

A tactic for facilitating social interaction with laryngectomees. G. Blood, & I. M. Blood. November, 416-419.
Preferences for three types of alaryngeal speech. G. Green, & M. Hults. May, 141-145.
Reply to Ralph Shelton. F. Weiner. August, 336.
Stuttering: Overt and covert measurement of the speech of treated subjects. G. Andrews, & A. Craig. February, 96-98.
Stuttering: The results of 5 days treatment with an airflow technique. J. G. Andrews, & S. Tanner. November, 427-429.

Stuttering treatment: An attempt to replicate the regulated-breathing method. G. Andrews, & S. Tanner. May, 138-140.

Sudden onset of stuttering: A case report. J. L. Deal. August, 301-304.

The effects of self-evaluation training on maintenance and generalization during stuttering treatment. R. J. Ingham. August, 271-280.

VOICE DISORDERS, LARYNGEAL DISABILITIES

Acoustic characteristics of voice production after Staffieri's surgical reconstructive procedure. J. Robbins, H. B. Fisher, & J. A. Logemann. February, 77-83.

An around-the-house device for the clinical determination of respiratory driving pressure: A note on making simple even simpler. T. Hixon, J. L. Howley, & K. J. Wilson. November, 413-415.

Airway resistance characteristics of Blom-Singer tracheoesophageal puncture prostheses. B. Weinberg, & J. Moon. November, 441.

Airway resistance during esophageal phonation. B. Weinberg, Y. Horii, E. Blom, & M. Singer. May, 194-198.

A reply to Rothenberg. T. J. Hixon. May, 220-223.

A tactic for facilitating social interaction with laryngectomees. G. Blood, I. M. Blood. November, 416-419.

Preferences for three types of alaryngeal speech. G. Green, & M. Hults. May, 141-145.

Speech and swallow following Staffieri voice restoration procedure. D. Graner, A. Kanter, B. M. Klor, & F. J. Milianti. May, 146-149.

The relationship of communication disorders in syndrome identification. R. J. Shprintzen, & V. L. Siegel-Sadewitz. November, 338-354.
